PROFESSIONAL EXPERIENCE

Web Developer & Sales Officer

Dec 2025 – Present

MIZ – Mohammed Ibrahim Alzubaidy Company, UAE

- Developed and maintained the company's WordPress and WooCommerce e-commerce website.
- Managed products, pricing, inventory, website content, images, and categories.
- Designed responsive web pages using Elementor and customized the Blocksy theme to meet business and branding requirements.
- Modified HTML, CSS, and basic PHP to enhance website functionality and user experience.
- Managed website hosting, backups, deployment, and basic server administration.
- Optimized website performance, mobile responsiveness, and cross-browser compatibility.
- Sold supermarket equipment to walk-in and prospective customers, advising on product specifications and suitability for their needs.
- Delivered attentive customer service, handling inquiries, orders, and after-sales support to build customer satisfaction and loyalty.
- Coordinated between in-store equipment sales and the online store to keep pricing, promotions, and inventory consistent.

Assistant Professor – Computer Science

Jan 2025 – Oct 2025

Musaliar College of Engineering, India

- Delivered lectures and practical sessions in Web Development, Python, C Programming, Machine Learning, and IoT.
- Taught HTML, CSS, JavaScript, and full-stack web development concepts.
- Mentored students in software projects, programming, and practical application development.
- Prepared lesson plans, course materials, technical documentation, and digital learning content.
- Provided IT support for computer labs, including hardware/software setup, troubleshooting, and maintenance.

- Managed lab systems, network connectivity, and software installations to ensure smooth practical sessions.

SAP ABAP Consultant

Aug 2022 – Dec 2024

Kulsam IT Solutions, India | Client: Wipro – Estée Lauder

- Developed and enhanced SAP ABAP reports and custom programs based on business requirements.
- Contributed to SAP EWM enhancements and warehouse management processes.
- Developed barcode-related programs to support logistics and warehouse operations.
- Collaborated with functional teams and stakeholders to understand requirements and deliver technical solutions.
- Also supported HR-related functions alongside primary SAP ABAP consulting responsibilities.

PROJECTS

Speaker Verification System (Machine Learning)

- Built an ML-based speaker verification system using MFCC and SVM.
- Achieved 89% accuracy through training and evaluation.

Arduino-Based Battery Level Alarm

- Designed a voltage monitoring system for low-battery alerts.
- Implemented LED and buzzer-based notification system.

EDUCATION

B.Tech in Computer Science and Engineering

2018 – 2022

APJ Abdul Kalam Technological University

CGPA: 7.51/10
